A Tie Game at the End of Eleven Innings.
(By Associated Press.)
CAMBRIDGE, MASS., June 22.—A rainstorm at the end of the eleventh inning brought to a close, but left undecided an intensely exciting game between Harvard and Yale on Soldier's Field, this afternoon.

The score was 1 to 1 when the game was called. Yale scored an earned run at the very start and in the second inning Yales misplays enabled a Harvard man to cross the plate.
From that time several opportunities were offered both sides, but superb pitching and sharp fielding prevented runs.

HAVE CIRCLED GLOBE IN BIG AUTO COVERING 25,000 MILES

Strange Experience of Mr. and Mrs. Charles J. Glidden Among Curious People of Many Lands—Fijians Much Excited.

(Special to The Times-Dispatch.)

NEW YORK, June 22.—Mr. and Mrs. Charles J. Glidden, "Prince and Princess of Automobiles," as they are dubbed by automobilists, arrived Tuesday on the Kromping Wilhelms.

They have circled the globe in a Napier car, having to date driven 25,000 miles in twenty-four countries, passed through 8,000 cities, towns and settlements and spent 210 days on the road. They "met" the season by motoring through cold countries in summer and hot lands in winter. The first tour began in June, 1901. They have ridden within both the Arctic and the Antarctic circles.

Their last touring was in the islands of the Pacific and the East Indies. "We motored over steel rails 2,000 miles from Minneapolis to Vancouver," said Mr. Glidden yesterday. "On the railroads we often covered more than sixty miles an hour. The car was equipped with steel flanged wheels."

"On December 9th we sailed from Vancouver on the steamship Moana, bound for Sydney, by way of Honolulu and the Fijis. My engineer, Charles Jones, an Englishman, accompanied us."

"We spent ten days in the Fijis, wheeling 200 miles. My machine was the first one on the Fijis. The natives prostrated themselves before it, calling it the 'father of all devils' and 'the boat on the road.'"

"The first native to ride in the car was Ratu Penia Kadavu. Levu Roko Tui Talavua, who was educated at Sydney and was a half-European and half-Fijian. The first question the king asked was: 'Can this machine make sixty miles an hour?' for he knew all about automobiles."

"Add Cakobau, a princess, who was dressed in a single garment of gauzy material, also took a ride."

"Fiji being on the 150th degree of longitude, New Year's occurs there the first

place in the world. Two and a half minutes before midnight I started. Some friends in Boston a cablegram, which arrived at its destination seventeen hours before the beginning of 1905."

"We traversed the entire length of New Zealand, N. Z., crossed Cook Strait and traversed South Island, visiting Bluff, the most southerly town in the world, whose 400 inhabitants drew up in holiday attire to receive us. We drove the car into the water so as to say the wave of the Antarctic had lapped the wheels."

"Tasmania has the finest roads in the world. They are native and convict made, and like a mosaic floor. A little stone is laid down and the dirt tapped all around it. The aborigines of Australia called the car the 'war demon.' Everywhere natives were given a ride, and the speed never took their breath away."

"Java is the most wonderful country in the world. For 1,250 miles we rode over the great macadam road built by the great Dutch engineer Danell, and in the building of which 2,500 native lives were sacrificed."

"Of the twelve volcanoes we saw three, monkeys pelled us with coconuts from the trees, we were stuck in six rivers, and entertained by the Sultan at Solo. The Sultan, accompanied by his wife and two concubines, took a drive in the automobile."

Mr. and Mrs. Glidden came home excitedly to see the 1,000-mile automobile touring contest through New England and the White Mountains for the Golden \$2,000 silver cup. The race will start from this city on July 11th and last two weeks. The car making the best all-around driving will win the trophy, which is a sterling silver globe representing the earth.
